- Example: Dog is to puppy as cat is to ____?
- Tip: Use familiar examples to explain relationships, such as "big is to bigger as small is to smaller."

4. Sequencing and Ordering

Children arrange items or events in a logical order, developing their understanding of sequences.

- Example: Which comes first: brushing teeth or washing face?
- Activity Idea: Sequence story pictures or daily routines.

5. Odd One Out

Kids identify the item that doesn't belong in a group, enhancing their discrimination skills.

- Example: Apple, Banana, Carrot, Mango ? which one is the odd one out?
- Tip: Use visual aids to make identification easier and more engaging.

Practical Tips for Teachers and Parents

To effectively incorporate logical reasoning problems into learning routines, consider these strategies:
